### Google Forms

Thanks for filling out [CoinGecko Request Form](#)

Here's what was received.

## CoinGecko Request Form

Kindly fill up the form according to your request. If your request(s) are not accommodated by this form, please email to [hello@coingecko.com](mailto:hello@coingecko.com).

FAQ - <https://www.coingecko.com/en/faq>

Methodology - <https://www.coingecko.com/en/methodology>

Email \*

[AslanKonge@gmail.com](mailto:AslanKonge@gmail.com)

Request Option \*

- ☒ New Coin / Token Listing
- ☐ Update Coin / Token Listing
- ☐ New Exchange Listing
- ☐ Event Listing

\*

I hereby acknowledge that CoinGecko reserves the rights to determine the suitability of my request for the site. In the event where my request is refused, CoinGecko shall not be obligated to inform or provide me with any form of response for said refusal.

\*

I declare that I have read, understood and hereby fully agree to the terms and conditions stipulated at [https://www.coingecko.com/en/listing\\_terms](https://www.coingecko.com/en/listing_terms) ("Listing T&Cs"), and that the company I represent has duly authorized me to enter into the Agreement on its behalf to severally and jointly bind the company and I.

### Is it a coin or token?

#### Is it a Coin or Token? \*

Coins = Built on own Mainnet. eg. Bitcoin, Monero, Zcoin etc. | Tokens = built on Smart Contract platforms. eg. ERC-20, TRC-20, BEP2, eosio tokens etc.

Coin

Token

#### Notice:

Please note that your Coin or Token must be actively traded on exchanges tracked by CoinGecko before it can be considered for listing on CoinGecko.

For more information, please see CoinGecko's Methodology (<https://www.coingecko.com/en/methodology>) and FAQ (<https://www.coingecko.com/en/faq>).

### Tokens

Tokens represent cryptocurrencies built on existing blockchain platforms. ERC-20, BEP2, and others fall under this category.

If your coins are built on its own blockchain / forked from an existing blockchain, please return to the previous section and select "Coins"

Token Name \*

AslanKonge

### Exchanges where Token is Listed \*

IMPORTANT NOTE: Please provide the EXACT LINK to the market pairs. Failure to properly link to exchange pairs may result in LISTING DELAYS. In case of AMM such as Uniswap, please link to the analytics page of the pair ([https://info.uniswap.org/tokens/\[ADDRESS\]](https://info.uniswap.org/tokens/[ADDRESS]))

<https://exchange.pancakeswap.finance/#/swap?outputCurrency=0x3639f7ef95ec5cc594c1505566468ce42974dc33>

### Token Symbol \*

KONGE

### Website URL \*

please include https:// in your url

<https://aslankonge.com>

### Blockchain Platform \*

What platform is this token issued on?

Binance Smart Chain (BSC) ▼

### Contract Address \*

Required - Please add token contract address (eg. <https://etherscan.io/token/0xe41d2489571d322189246dafa5ebde1f4699f498> for Ethereum ERC-20 tokens)

0x3639f7ef95ec5cc594c1505566468ce42974dc33

### Description \*

Give a CLEAR and CONCISE description of the project. Vague or "shilly" description will result in

LISTINGS DELAYS and/or REJECTION. You may use up to 10-15 sentences within 3 paragraphs or shorter to explain the project in a way that users will understand clearly the PURPOSE and FUNCTION of the project.

Fully doxxed Team! Real use cases: eSports Integration, developing the SAFEST Pre Sale and Fair Launch Platform, DAO Locking, KongeSwap, Option to SAFELY Renounce Ownership with the ability to make changes if needed after. Also, you will receive up to 20% in BUSD straight to your wallet simply by holding at least 200,000 KONGE. Liquidity is locked on DxSale

### Total Supply \*

Total amount of tokens that have been minted

1000000000000

### Max Supply \*

Maximum amount of tokens that can be minted (as per contract specification)

1000000000000

### Circulating Supply Application

Please be noted that CoinGecko would not automatically list circulating supply and market cap data immediately upon listing. All circulating supply data must first be verified by CoinGecko Team, please reach out to [hello@coingecko.com](mailto:hello@coingecko.com) for circulating supply data verification.
